DETAILED ACTION

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-21, drawn to a polymer concrete.

Group II, claim(s) 22-27, drawn to a method of forming a structural element.

Group III, claim(s) 28-32, drawn to a structural element.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

3. The special technical feature of the polymer concrete which comprise:

- (A) an amount of polymer resin,
- (B) an amount of thixotrope,
- (C) an amount of light aggregate and
- (D) an amount of heavy aggregate;

does not provide a contribution over the prior art, since it is disclosed by Hayes et al. 6,057,389 in claims 1-6 and column 2, lines 28-42.

4. A telephone call was made to Jennifer Duk on 2/6/06 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
